Talerz Polish Restaurant

The theme of our plates is Polish cuisine, which we want to present in a unique setting. We create a friendly place for everyone who loves kitchens, but also something more... Chef Marcin Wiśniewski presents not only original taste on the plate, but also art. Inspired by nature, he creates his dishes from seasonal products. Combining tradition with modernity and quality with the unique casual atmosphere of "Talerz" wants to feed you every day!

Il Piatto

A cozy interior, an open and engaged team and a kitchen that equally carefully prepares the simplest Italian classic dishes, as well as surprising, rare combinations of flavors proposed by the chef. A place that combines the traditions of Italian food and spending time with unbridled creativity on plates and glasses.

Primo

Our basis is Italian cuisine but in a more modern one could say - our own edition. We are one of the few restaurants in Poland where pizza dough is not prepared on yeast but on sourdough. Sourdough is already 31 years old, which makes it extremely stable. The recipe is our secret, but what we can boast about is the fact that the dough ripens naturally for 48 hours and thanks to this process and the secret ingredient, the pizza is so unique: light and ultra-thin.

In Primo, apart from pizza and pasta, you will eat the best quality Polish, seasoned meats, fresh seafood and cold cuts - straight from Italy.

There is a positive and friendly atmosphere in Primo, which we owe to a nice and professional team.

All this in Old Podgórze, right next to Father Bernatka footbridge.

With the rest ... you have to see and try it yourself, because it's worth it! :)
